

School Compost Log

School Garden Food Safety

Date	Location	Source of Compost*	Recorded Temperature

* i.e.: company's name if compost was purchased or what was used to create compost if made at the school (temperature records are essential if creating own compost)

At this time, school prepared compost can only be used on non-edible plants and must only contain plant products.

The Arizona Department of Agriculture, Agricultural Consultation and Training has funded all or a portion of this Project, using Specialty Crop Block Grant funds provided by the USDA, Agricultural Marketing Service.
